PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 1.5+ years of experience specializing in the React and Next.js ecosystems. Proven track record of architecting scalable, high-performance web applications using modern technologies like Redux Toolkit and Tailwind CSS. Adept at bridging design and engineering to deliver exceptional user experiences.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Framer Motion
Tools & Platforms: Git, GitHub, VS Code, Linux, Vercel, RESTful APIs

PROFESSIONAL EXPERIENCE & KEY PROJECTS

Software Developer September 2024 - Present
Coneon (www.coneon.in) Gurugram, India

- Independently architected and developed the complete frontend infrastructure using React and Vite, resulting in a 40% reduction in initial load times.
- Collaborated with design and backend teams to build 50+ reusable, responsive UI components using Tailwind CSS, accelerating feature delivery by 30%.

Software Developer Intern January 2024 - June 2024
DRDO (Defense Research and Development Organization) Gurugram, India

- Developed highly secure software modules for mission-critical defense applications, successfully completing 100% of assigned objectives during a rigorous 6-month internship.
- Contributed clean, well-documented code for scalable system design across 12+ agile sprints, enhancing data validation efficiency by 25%.

Other Projects

Dayout Cab Service (dayoutcabservice.com) Next.js, React
Project Gurugram, India

- Engineered an SEO-optimized cab booking platform leveraging Next.js SSR, driving a 60% increase in organic search traffic within the first 3 months.
- Implemented advanced Service Workers to achieve a sub-2-second Time to Interactive (TTI) on mobile devices, ensuring seamless offline fallback capabilities.

DoerDevs (doerdevs.com) React, Node.js, Redux
Project Gurugram, India

- Single-handedly built a comprehensive B2B platform connecting businesses with software experts, successfully supporting over 500+ active concurrent user sessions.
- Architected complex application state using Redux Toolkit, effectively handling high volumes of dynamic data and reducing state-related UI bugs by 45%.

EDUCATION

Bachelor of Engineering, Computer Science 2020 - 2024
Graduation Chandigarh, India

- Graduated with a 7.26 CGPA.

Senior Secondary (12th) 2020
Schooling Chandigarh, India

- Achieved 78.6% in 12th grade board examinations.

Matriculation (10th) 2018
Schooling Chandigarh, India

- Achieved 9.6 CGPA in 10th grade board examinations.
